

Dawnprene TPE 6002-NC

TPE

PA6 30%gf PA6

TPE

Features:

It is a natural color thermoplastic elastomer (TPE) material. This material combines good physical properties,chemical resisitance and elasticity, designed for bonding PA6 and 30%gf PA6 applications.This grade of TPE can be processed on conventional thermoplastics equipment for injection.It is completely recyclable.

(GENERAL)

(Application)

Dawnprene TPE is incompatible with PVC materials,hence must clean the equipment before using.

Above testing data is tested by injection sample block, cutting by the sheet size is 110 85 2 .

4. Any reprocessing must follow the above instructions, and ensure no content impurity.
